

# GWMN-400B

## Toroidal sticky taping machine

## **Brief Technical Description:**

Brand new PLC+touch screen control system, German manufacturing process,750W Wade servo motor, to ensure 100% accuracy of the circle, the highest idle speed of the machine head can reach600rpm; 57 stepper motors to ensure beautiful cable arrangement; automatic/manual setting of forward and reverse direction of the product; automatic/manual control of line distance; automatic/manual increase and decrease of tape speed;

## **Product Specification (GWMN-400B):**

Machine head complete parameters	<b>GWMN-400B</b>
Tape width range	4-8MM
Tape ring inner diameter	170MM
The maximum finished outer diameter	70MM
Minimum finished inside diameter	12.5MM
Maximum Finished Height	20MM
Maximum speed	650
